

**A manual for registration and login to
the Document Management System (DMS)**

By clicking the link for the demo version of the Document Management System a link will open as the one shown below in image 1.

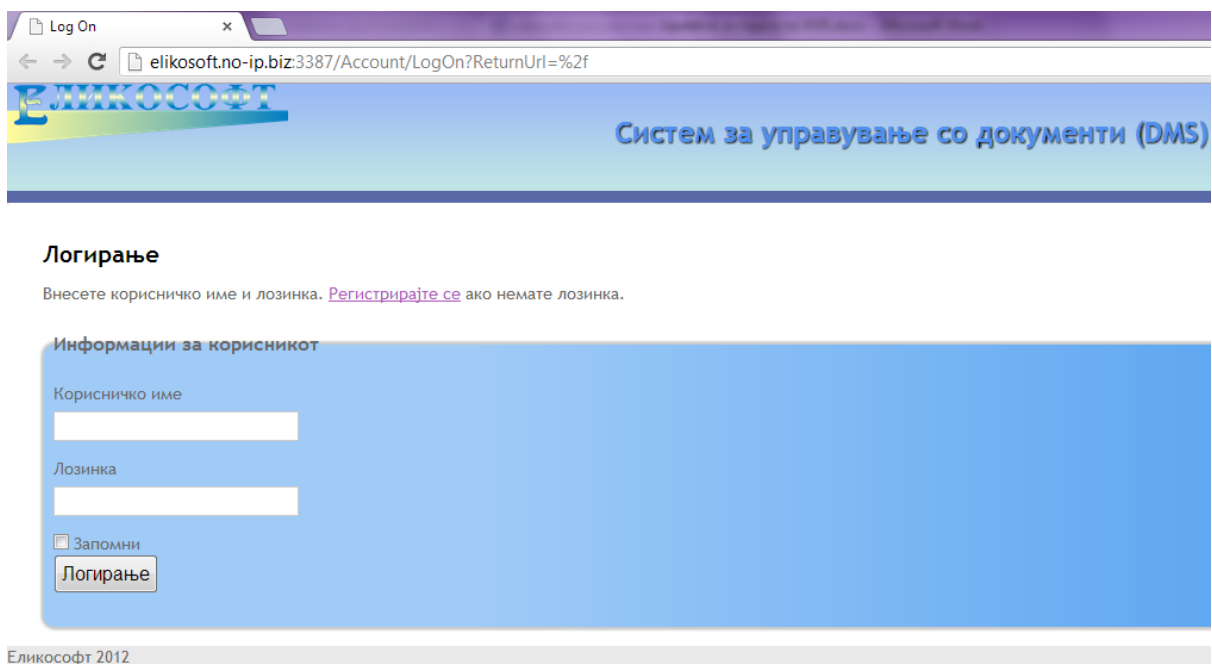

Image 1. Demo User Login and Registration Box

Before you login to the system you will be first required to register. The registration is performed only once and the username and password created by the registration are used further on for system login.

To register click the **Регистрирај се** button and a window will open as the one shown in image 2.
